Room Sealed Flue KitTM

Solution for nearly every hearth & home

Every home is different and requires a different solution,
Whatever they might be, **Pivot's Room Sealed Flue™**.
is adaptable to your needs.

Room Sealed Flue Kits™ offer:

Connecting
RSF

- All Stainless steel construction
- Stops up to 8% heat loss

90%
Quieter

- Up to 90% Noise Reduction
- Safer to install

Connecting
Bends

- Offset and bends for faster installation
- Stops debris falling on top of heater

RSF
Ceiling Ring

Insulated ceiling ring creates an air tight room to give a true room sealed solution, perfect for High Efficient and passive homes.

Insulated flue promotes a cleaner burn by providing a consistent flue temperature.

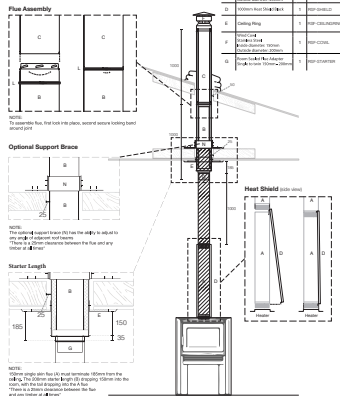

More Info

Why Choose a Room Sealed Flue Kit

Designed in Australia, our Insulated Flue Kits are perfect for the Australian home...

Fully Stainless Steel

Perfect for sea side homes and for a polished.

Using the RSFK™ is highly efficient, Increasing your wood heater efficiency by 10%.

Flashing

Unlike Other flue kits, our RSF™ is rated up to BAL-FZ.

Twist-lock

Simple twist-lock design means no more screws!

Ceiling Ring

Keeps the heat in the room and prevents draughts.

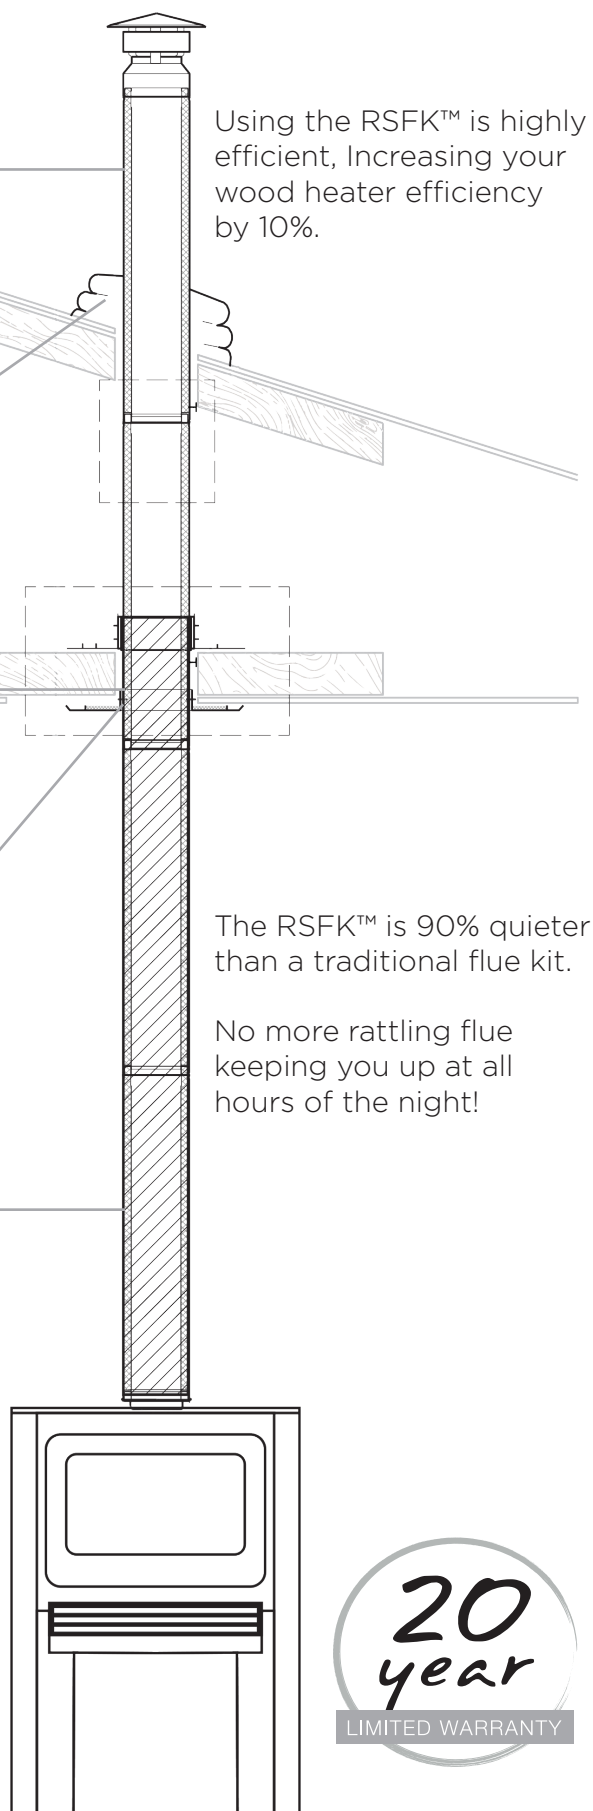

Fully Insulated

Reduced clearances and a thinner diameter for your flue.

Narrower than traditional flue kits, the RSFK™ has a tiny 25mm clearance to combustibles.

Perfect for fitting into those tight and tricky roof cavities.
