

CHARNWOOD 
STOVE POD

*A complete fireplace solution
designed for small space living.
Safe, simple and quick to install.*

CHARNWOOD STOVE POD

An instant freestanding stove chamber & hearth plate that is quick and easy to install.

The Charnwood Stove Pod is designed for cabins, yurts, tents, boats, home offices and other tiny home accommodation. Compatible with the highly efficient Charnwood Aire 3, this neat steel enclosure creates a safe, protected focal point for the room. The Charnwood Stove Pod can be placed on any hard, flat surface without the need for an additional hearth. It is available in a matt black powder coat with the option to add a VLAZE vitreous enamel liner for a stylish, easy to clean finish.

Designed and made in the UK from the best of British materials.

Featuring an integrated shelf that can take a static load of up to 56kg.

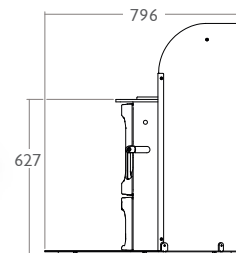

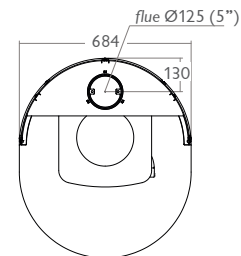

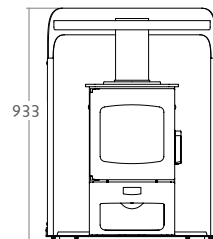

The Stove Pod can be safely placed 50mm from the back to combustible materials.

Optional VLAZE vitreous enamel liner in black splatter for an enhanced finish.

Optional Charnwood Cooking Plate.

Quick and easy to install.
